## Ike's Foreign Trade Program Passes 1st Test

House Unit Approves Bill Giving President All of Basic Requests

WASHINGTON (AP) — President Eisenhower's embattled program for a five-year extension of the reciprocal trade law has passed its first big congressional test. The administration trade bill is still a long way from enactment. A big battle looms when the measure goes to the House for consideration next week. Then it must clear the Senate.

With Democratic leaders cracking the whip, the House Ways and Means Committee late Thursday completed action on an administration-approved compromise that would give Eisenhower virtually all of his basic requests.

It was an initial victory for the President, who has said repeatedly that U.S. restrictions on world trade would play into Communist hands.

### Includes 5-year Extension

As approved by the committee, the bill includes a five-year continuation of the trade program beyond June 30, with authority to lower U.S. tariffs up to 25 percent more in negotiations of international trade agreements.

With it, however, went a precedent-setting provision for congressional review of the President's tariff authority. The administration accepted this provision, but foes of the program labeled it a fraud and "phantom gimmick."

With Democratic leaders in control, the compromise bill is expected to win final House approval by next Wednesday.

### Back Substitute Bill

House high tariff forces, with heavy support from both Democrats and Republicans, joined today in backing a substitute which in effect would strip Eisenhower of his tariff lowering authority and vest trade powers in Congress itself.

The strategy of reciprocal trade foes was to try to block the House from considering the compromise bill through adoption of procedure making the protectionist substitute the order of business.

As a major concession to trade foes, the administration agreed that Congress should have the right to veto the President's refusal to raise tariffs where the Tariff Commission finds that imports threaten economic injury to American business. It would require a two-thirds vote of both House and Senate to override the President.

## Kiwanians Honor High School Students

Ten Salem High School students, who have studied three or more years of mathematics and who rank highest in grades for their combined subjects, were honored at Thursday's Kiwanis Club luncheon meeting in the Memorial Building.

Beeman Ludwig, high school principal, served as program chairman and introduced the seven girls and three boys, giving highlights of their extra curricular activities.

The outstanding students are Bob Bennett, Nancy Cope, Diana Crowe, Jeanne Hayes, Sue Henning, Curt Ludwig, Jane Phelps, Diana Papasporis, Marcia Smith, and Steve Wald.

Harold Wyckoff congratulated the students and presented each with a cash prize from the Kiwanians. Each student answered questions about his or her post graduation plans.

Dressed in old fashioned clothes an ensemble of high school girls sang several selections to advertise the coming antique show, which is being sponsored by the Salem Federation of Women's Clubs.

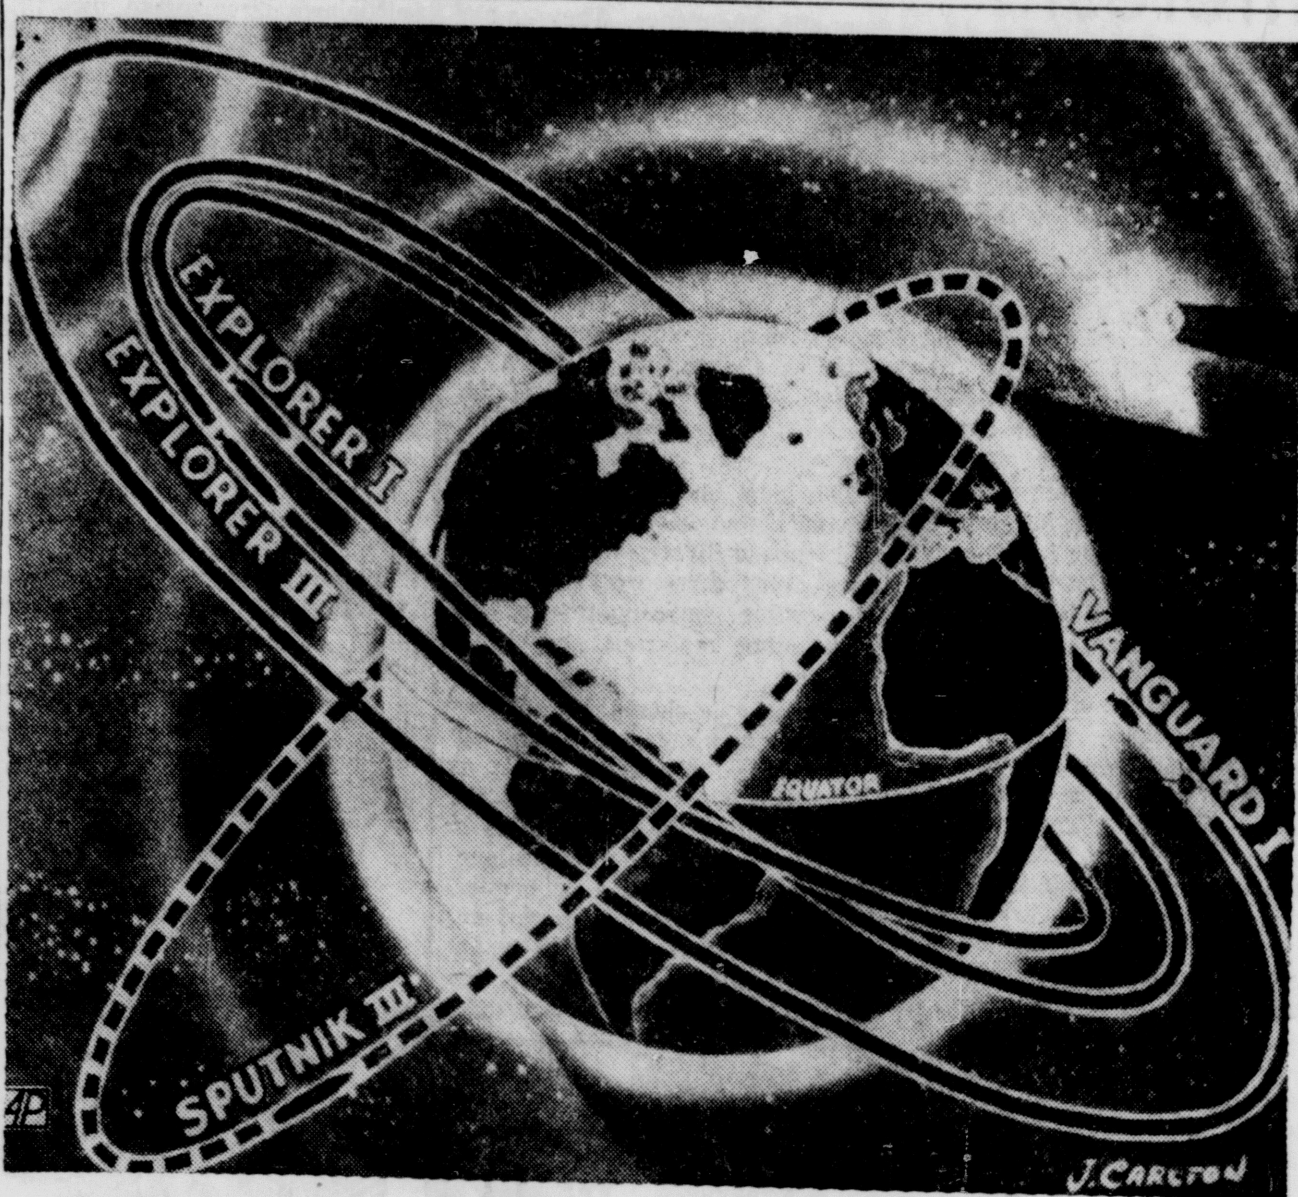

Barbara Ford was announcer for the group which included Alice Farmer, Nancy Fromm, Lois Schaefer, Cusley Livingston, Martha Stein, Vivian Vincent, Elizabeth Works, Linda Whinnery and Dixie Wilde, the accompanist.

### Arab Leader Departs From Moscow

## Nasser Promised Aid From Soviets

MOSCOW (AP) — President Nasser fled home to Cairo today with Premier Khrushchev's pledge of "all the help you need from us" to unite the Arab world.

"The Soviet government wants

solidarity of the Arab people under your leadership," Khrushchev told the head of the United Arab Republic. He described Nasser as "the outstanding leader of all the Arab peoples."

Speaking at a Kremlin banquet Thursday night, Khrushchev made his remarks pointedly anti-Western by adding that Arab unity under Nasser would guarantee that "colonizers will never return to your sacred soil again."

He did not specify what help Russia might offer. But his remarks were a direct slap at the Western-backed federation formed by Iraq and Jordan as a counter in the Arab world to the U.A.R.

The banquet followed signing of a joint statement in which Nasser, after more than two weeks of Russian hospitality, agreed to the Communist line on most international issues, including the Red drive for a summit conference.

Western diplomats expressed the opinion, nevertheless, that both Nasser and Khrushchev were less than completely satisfied with results of their negotiations.

The joint communique said nothing about the substantial Soviet economic and technical grants Nasser had hoped to get in addition to the approximately 175 million dollars in loans already promised Egypt and Syria. Kremlin leaders were believed to have pressed for closer political ties than Nasser was willing to establish.

The two leaders denounced "the barbaric French war against the Algerian rebels... colonial aggression against Yemen... foreign interference in the internal affairs of Indonesia."

## City Street Oiling Program Set June 15

Local residents who wish to have unpaved streets in front of their homes oiled by the city must turn in applications and money to City Clerk Robert H. Heutner at City Hall by June 15, Service Director Harry Vincent said today.

Vincent said the oiling on each street will begin as soon as all the street residents have paid their money.

He stressed that residents should know the width of their street. The cost will be eight cents per running foot for a street eight feet wide or 12 cents per running foot for a street 12 feet wide.

## Tammany Hall Dumps Powell

Assertedly Dropped For Supporting Ike

NEW YORK (AP) — Tammany Hall leaders have dropped Rep. Adam Clayton Powell Jr. (D-NY) as a Democratic candidate for re-election, asserted for his support of President Eisenhower in 1956.

Powell, his political back to the wall, has said he will retaliate with an independent organization to keep the Harlem congressional seat he has held since 1945.

The Negro congressman goes into U.S. District Court today to plead to an indictment charging him with income tax evasion.

Tammany leaders, headed by Democratic National Committee chairman Carmine G. DeSapio, voted 11-1 Thursday to read Powell out of the Democratic party.

DeSapio said the tax case involving Powell had nothing to do with the political decision.

Powell has a strong personal following in the 16th Congressional District.

The Baptist Ministers' Conference of Greater New York issued a statement strongly defending Powell, pastor of a large Baptist church in Harlem.

A conference statement termed Powell's dumping "a deliberate attempt to silence this summit voice for the liberation of people of color."

Powell could not be reached for comment or his ouster from the Democratic ranks by Tammany Hall, the Manhattan party organization.

## Parking Fine Boxes Due Here Next Week

City parking meters will have a new look beginning some time next week, Police Chief George T. Early announced today.

Early said each meter will be equipped with a small yellow box to be used by persons paying parking violation fines.

He said tickets will be issued in an envelope and offenders need only place their money in the envelopes and insert the envelopes in the yellow boxes.

Early said under this system, parking violators will not have to go to City Hall to pay their fines, etc.

# Pflimlin Requests Emergency Power

## French Crisis' Impact on NATO Weighed in U.S.

Many High Officials Fearful of Effect On Western Alliance

WASHINGTON (AP) — The White House and State Department watched the darkening French political crisis in silent apprehension today, fearful of its impact on the unity and strength of the North Atlantic Alliance.

Diplomatic officials said it was impossible to predict the outcome of the rapidly developing conflict of forces and personalities in France and Algeria. But many in high position were known to feel that the very existence of the Fourth Republic is at stake.

One possibility causing concern in official quarters was the danger that the French military in Tunisia, commanding 25,000 troops might follow the example of the French army in neighboring Algeria and try to set up some kind of committee to exercise at least a degree of political authority.

The government of President Habib Bourguiba, whose country was a French protectorate until 1956, is understood to have expressed anxiety on this score.

Bourguiba has no military force comparable to that of France, which kept troops in Tunisia after granting independence.

### World Policy in Question

In France itself, the carefully timed bid of Gen. Charles de Gaulle for supreme national authority raised questions about France's future world policy. De Gaulle has long been known as a strong and stubborn man, dedicated to his concept of French interest, insistent on having his own way and often impatient with the views of allies.

One of the questions now being asked here is what would be France's position within the Western alliance should he come to power? Another, would Paris continue to cooperate closely with Washington and London on issues in negotiation with Russia, notably a summit conference?

### U.S. Hopes Destroyed

Already the crisis has substantially destroyed U. S. hopes for the early development of a more conciliatory French policy toward the rebellion in Algeria. Even if the new government of Premier Pierre Pflimlin succeeds in riding out the storm—the worst in post-war French history—its flexibility to deal with the Algerian situation seems already to have been lost.

High American officials have long feared that French civilian authorities would not be able to solve the Algerian problem and that at some critical moment the military would move to seize power and impose an extreme rightist policy.

Beyond this, U. S. officials have reasoned that the Algerian crisis might very likely grow into a north African crisis, making it increasingly difficult for Tunisia and Morocco to maintain friendly ties with the West. This in turn would open up new opportunities for Communist agitation and for the expansionist aims of President Nasser of the United Arab Republic.

## Dallas Bishop Case Under Jury Study

LISBON — A Common Pleas Court jury of six men and six women began deliberations this morning at 9:45 in the case of Dallas Bishop, 40, of Salineville, former East Liverpool special officer on trial for the Oct. 5, 1952 burglary of the Smith and Phillips Co. furniture store in East Liverpool.

Closing arguments in the case

were presented Thursday afternoon, and Judge Raymond Buzzard charged the panel this morning.

In his 40-minute charge, he told the jurors they had three choices of verdict — not guilty, guilty of burglary and guilty of larceny, a lesser charge based on theft and not breaking and entering.

Bishop, taking the stand in his own defense yesterday, denied that he broke into the store and took a radio. He repudiated for the second time a 12-page statement which he had written in county jail following his arrest in 1956, declaring it was fiction prepared in hopes he would "get a break."

He testified that the radio, considered one of the most important pieces of evidence in Prosecutor G. William Brokaw's case, was sold to him by Robert McBane, another former patrolman who has pleaded guilty to eight burglary charges.

The radio, an exhibit during the trial, was recovered by Sheriff Russell J. VanFossan at the Midland, Pa., home of Mrs. Mary Trbovich. The state charges Bishop gave the radio to her, but he swore she had purchased it from him after he paid \$20 to McBane.

Bishop testified he believed his superior officers suspected that McBane, the state's chief witness, had been involved in burglaries before the scandal broke in 1956.

He also told the jury that McBane narrowly escaped being shot by another officer after he was caught in the East Liverpool Coca Cola building in 1952 or 1953.

Bishop is being tried separately on an indictment which also charges former officers Ira Cunningham, 50, and Robert Carroll, 35.

Five policemen and two special officers were implicated in the police scandal.

Bishop was arrested in March, 1956 during the police investigations. He pleaded innocent at arraignment to the 1954 burglary of the Berman Lumber Co. and to the Smith and Phillips Co. store.

But he later changed his plea and served as a state witness in the trial of Robert Hanna, ex-police officer.

Two unopposed Democrats reported they spent nothing. They are Don R. Gosney of Columbiana, returned as state central committeeman, and Atty. Robert S. Hartford, nominee for Common Pleas judge.

## Parliament Unit Approves Move To Allay Strife

Premier's Country Villa Bombed; None Reported Injured

PARIS (AP) — Premier Pierre Pflimlin's request for drastic powers to head off civil strife or a Gaullist coup was approved swiftly today by a committee of Parliament.

Deputies were assembling in urgent session to pass the emergency powers bill. The bill cleared the committee 33-6.

Pflimlin's country villa at Hendaye was bombed Thursday night and police found two more bombs at the Interior and Economic Ministry buildings in Paris. The bombs in Paris were disarmed before they exploded but the bomb in front of the premier's villa caused considerable damage.

Pflimlin himself was in Paris and no one was reported hurt. A drizzling rain combined with an Ascension Day weekend to keep crowds down but the National Assembly was ringed with about 1,000 special security troops as the session started before packed galleries.

Asks Okay of Bill Pflimlin asked the Assembly to vote immediately a bill declaring a state of emergency in France, a condition just short of martial law. As all but the extreme-right backers of Gen. Charles de Gaulle cheered repeatedly, he reported on the takeover of power in Algeria by army officers and militant French nationalists and announced the first emergency measures already had been taken.

In Algiers, the French commander in chief, Lt. Gen. Raoul Salan, appeared to be trying to establish himself as the controlling authority. He issued an order to all armed forces in the territory saying he alone was charged with civil and military power in Algeria — a power delegated to him by Pflimlin after the military-civilian committee of public safety began taking over from the Paris-appointed officials.

Salan's order specifically failed to mention the insurgent committees that now control most of the towns and cities in the territory.

Spurred on by fears that De Gaulle would become dictator of France, an overwhelming majority of deputies was expected to approve the emergency powers for Pflimlin. The World War II hero broke his six-year public silence Thursday with a cryptic statement declaring the "regime of parties" was destroying France and he was ready to take over the "powers of the republic" — presumably to rule unchecked by the Assembly.

Money, Cigarettes Stolen From Barnett's

LISBON — Burglars made off with an undetermined amount of money and cigarettes Thursday night from Barnett's Restaurant on Rt. 62, between Salem and Damascus, according to Sheriff Russell J. VanFossan.

The intruders broke a window in the custard stand to gain entrance to the restaurant. They pried open the cigarette machine and took the money and cigarettes.

Nothing else was reported missing, Chief Deputy James Miller, who investigated, reported.

Fined were: Stanley Manypenny, 20, of RD 4, Salem, \$10, reckless operation; and Donald J. Samonski, 18, of 256 W. Pershing St., \$10, speeding.

Plentiful Coal, Water Supplies, Cheap Transportation Major Factors

# U.S. Nuclear Power Installations Are Concentrated in Ohio Valley

By COL. R. E. SMYER JR.  
Division Engineer, U.S. Army  
(Second in a Series)

CINCINNATI — The Ohio Valley is, in truth, "atom valley," because nowhere else in the United States, and perhaps the world, is there a greater concentration of installations devoted to the task of putting the atom to work for peace and war.

Availability of plentiful water, unlimited supplies of coal and facilities for its cheap transportation have been overriding factors in the choice of sites for eight such plants, all located within a 275 to 300-mile radius of Cincinnati.

Four of the eight are a part of this country's basic atomic structure, i.e., the production of atomic materials in one form or another. The four include the "granddaddy" of all such plants, at Oak Ridge, Tenn.

A billion dollar gaseous diffusion plant is located at Waverly, just north of Portsmouth, Ohio. It is a plant so big it requires the entire output of the world's two largest privately built steam-electric generating plants near Madison, Ind., and Gallipolis, Ohio.

Another huge gaseous diffusion plant is at Paducah, Ky. The fourth major operation, which concentrates on basic materials reduction, is at Fernside, Ohio, near Cincinnati. At Evendale, also a Cincinnati suburb, General Electric Corp. operates an aircraft nuclear propulsion (ANP) laboratory in connection with its huge jet engine plant. And 40 miles north of Cincinnati, at Miamisburg, Ohio, the Monsanto Chemical Co. operates for the Atomic Energy Commission a laboratory for atomic research.

The two major AEC installations at Waverly and Paducah alone account for nearly three billion dollars worth of industrial growth in the valley — an expansion which since 1950 has witnessed the investment of some 15 billion dollars in new and improved plant facilities.

## Gives Bright Picture

The Fourth District Federal Reserve Bank in Cleveland has described the Ohio Valley as the fastest growing, industrially, among all comparable geographic subdivisions of the United States.

And, looking ahead to well beyond the year 2000, army engineers are in the midst of an \$85 million dollar navigation dam replacement and modernization program with the expectation that, thereby, the Ohio River will become an even more potent factor in the region's development.

By 1965, assuming annual appropriations of funds will be made by congress, at least four new high-level dams in the Corps of Engineers' program will have been completed, with starts probably made on construction of 1200-foot locks at several others among the 19 high level locks and dams now contemplated in the over-all system. The four that should be completed are: New Cumberland, W. Va., 55 river miles below Pittsburgh; Greenup, Ky., 3 miles below Huntington, W. Va.; New Richmond, Ohio, some 32 miles above Cincinnati; and Markland, Ind., 61 river miles below Cincinnati.

**Will Replace Lock 41**  
A 1200-foot lock to replace present lock 41 at Louisville, Ky., is expected, even before 1965, to have eliminated traffic congestion at that point which makes it today the most serious bottleneck on the Ohio.

This means for instance, that a steel tow out of Pittsburgh, bound for lower Mississippi points, will save two and one-half days of

lockage time by the time she enters the Mississippi at Cairo, Ill.

The importance of water to an industrial expansion cannot be over estimated, particularly when that expansion—as in the case of the Ohio Valley—shows no sign of let-up.

The U. S. Geological Survey reported recently that present use of water by industry equals 160,000 gallons per year for each person in the United States, that industrial water-use increased 43 per cent from 1950 to 1955 and that all but two or three per cent of industrial water was returned to its source.

A recent engineering survey of a 3100 square-mile area in eight counties of northern Ohio — including what usually is referred to as Greater Cleveland—showed that whereas a present population of 2,400,000 uses 1,281,000,000 gallons of water per day for all purposes, estimates indicate that by 1960 a population of 3,450,000 will require 2,654,000,000 gallons, and that in the year 2,000 a population of 4,800,000 will use water at the rate of 5,254,000,000 gallons per day.

As of now, the Ohio Valley's water supply for the most part exceeds the demand. But recurring periods of drought are marked almost uniformly by the necessity of providing supplemental water for municipal-industrial use, and augmenting channel flow on major streams of the Ohio-Mississippi River system.

The overall picture, then, with respect to water requirements of the future, hardly is a comfortable one, and if the Ohio Valley continues to grow industrially and population-wise as it has since World War II, it is apparent that even with the probable construction of additional flood control or multi-purpose reservoirs and establishment of supplemental water conservation measures, there still will be need for most careful husbanding of water.

Instead of releasing reservoir-stored flood water as expeditiously as possible toward the sea, we will see the day when, by careful planning, we will literally subdivide each minuscule droplet to its own best use by the greatest number of people.

The day undoubtedly is coming when cities and towns—existing and those certain to rise—must "reserve" or in effect contract for, given portions of flow from multiple-purpose reservoirs, including those which now might be only in the planning stage. New attention will be directed by communities to nearby subterranean sources including prehistoric streams long since submerged, which continue to flow through portions of the valley.

We have made great strides in the field of flood control—a factor of considerable weight in influencing industry to come to our valley. Floods are no respecters of state lines and it was not until after the record Ohio River floods of 1936 and 1937 that the army engineers were authorized to plan and initiate a comprehensive pro-

gram intended to prevent, or at least lessen, the impact of recurring high water.

The importance of this program is apparent in the fact that whereas the 1937 holocaust caused loss in excess of 400 million dollars, the same flood occurring today under identical conditions, with similar lack of present day controls, would inflict loss far above one billion dollars.

## Salem Navy Recruiter Is Award Recipient

National recognition for outstanding achievement in obtaining Navy enlistments has been granted the Salem Navy Recruiting Station, according to Chief Petty Officer Edwin Pease who is in charge of the local station in the post office building.

The recognition, which came in the form of a "Navy Recruiting Station of the Month Award," was signed by Captain M. J. Luosey, director of Navy recruiting in Washington, D.C., and was presented to the station by Lt. Cmdr J. R. Bohlken, officer in charge of Navy recruiting for this area.

The award was based on the recruiting results obtained by the Salem recruiter during February and March, when 14 men were enlisted as opposed to an assigned quota of six men.

Special enlistment programs are available to high school graduates, Chief Pease said, and qualified young men may select their branch of specialized training before they enlist.

He emphasized that every man who enlists, regardless of whether he is a high school graduate, has an opportunity to learn one of more than 60 specialized trades.

## Plans To Form Lisbon Jaycee Unit Discussed

LISBON — Twenty-five Lisbon young men, along with four from East Palestine met in Lisbon High School Tuesday evening to discuss forming a Junior Chamber of Commerce here.

East Palestine Jaycees are sponsoring the new club. No definite action was taken last night.

Twining Hiseox is serving as temporary chairman, and Jack Beck, temporary secretary.

Representing the East Palestine Club were Walt Neild, Henry Dilling, Barry Dickson, and Mel Smith. They explained their club's projects last year.

Lisbon had a Junior Chamber early in 1940 but it was disbanded during World War II.

Men 21 through 35 are eligible to join.

Mary began her career as a United Air Line stewardess on May 18, 1933. Her first flight was aboard a 10-passenger Ford Tri-motor between Chicago and New York. Today, 25 years later, she "keeps house" in a specially designed twin-engine plane which cruises at 270 miles an hour.

## Farm News Of District Interest

### Report on Insects

A report on insects by D. Lyle Goleman, extension entomologist at Ohio State University, is being released by the Columbiana County extension agents for the benefit of local agriculturists.

**Armyworms** — destroy cereal crops before they are noticed. Weather conditions and parasites normally hold these in check. However, rank vegetation such as ditch banks, fence rows, and barley fields provide excellent places for the moths to lay their eggs.

Watch these areas for the presence of these insects. Toxaphene (2-3 pints 60 per cent emulsion per acre), or Dieldrin (1-1.3 pints 15 per cent emulsion per acre) gives good control applied by either airplane or ground sprayer.

**Flea beetles** — have been observed in abundance in Ross and Franklin counties. These are tiny, black, shiny beetles which often damage early sweet corn.

Since these insects carry a bacterial disease, it is necessary to spray the corn plants as soon as they come up. DDT (2-3 quarts 25 per cent emulsion per acre) is the recommended material. If the beetles persist, it may be necessary to repeat these sprays at 3-4 day intervals.

### Cause Severe Losses

Outworms — sometimes cause severe losses in corn fields. Watch corn fields carefully for evidence of outworm damage, which may occur before the first cultivation.

They feed at night and usually can be found curled up in loose soil around the base of a newly cut plant. Outworms usually are more damaging to corn following soy. Toxaphene, Chlordane or DDT is effective when used as sprays directed at the base of the plants.

**Clover mites** — These annoying mites migrate into buildings from the lawn and are difficult to control. They do not damage the home or house furnishings, but cause the housewife much anguish. Newly established, vigorously growing lawns seem to be particularly attractive.

A barrier of bare soil for 1 1/2 feet next to the house helps prevent their entering the house. Miticides

such as Dimite, Chlorobenzilate, Aramite, or Malation are effective if sprayed on the building foundation; on the lawn and shrubbery within 8-10 feet of the house.

### Problem in the Spring

Horn flies — pierce the skin of cattle and suck blood, causing pain and annoyance. They are commonly a problem in the spring and early summer.

They are about half the size of house flies and are commonly seen clustered on the backs and necks of cattle. The swish of the head or tail scares them off only temporarily.

Dairy cows can be sprayed daily with quick knock-down sprays such as Pyrethrum, or can be dusted with Methoxychlor (1 tablespoon 50 per cent wettable powder).

This dust should be applied to the neck and back of the animal and rubbed lightly into the hair once every three weeks. Because of possible contamination of the milk, other materials should not be used.

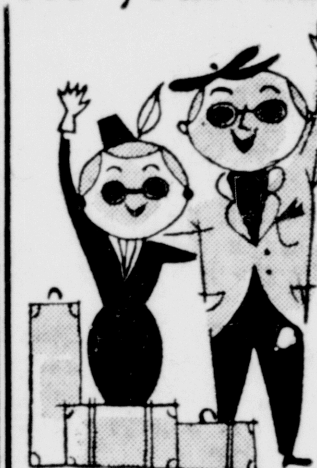

Potatoes — should be sprayed as soon as they can be rowed. Flea beetles attack the plants as soon as they come through the ground, eating tiny round holes in the leaves. Since DDT is no longer effective against flea beetles, Dieldrin is being recommended. Unfortunately, Dieldrin does not control leafhoppers, so it is necessary to keep DDT in the schedule.

### Berries Should be Sprayed

Strawberries — should be sprayed for the control of both spittlebugs and plant bugs. Tarnished plant bugs are responsible for deformed fruits or "button berries."

Spittlebugs often make picking very undesirable by producing white frothy masses on the stems and leaves.

Methoxychlor is effective against both pests (3 pounds of 50 per cent wettable powder per 100 gallons of water). Do not apply Methoxychlor

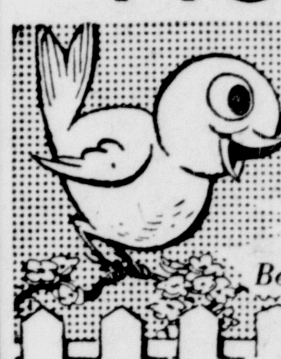

on the berries within 14 days of harvest.

Tent caterpillars — are showing up in some northeastern counties. They form a tentlike structure within which they live and feed. Shade trees and fruit trees are both involved, but damage is usually not serious.

Almost any kind of spray scheduled will eliminate these pests from commercial orchards. Melathion, DDT, or lead arsenate can be used if the problem exists in backyard trees.

EAST LIVERPOOL — Henry Chandler Moore, 78, of Williams Ave., died at 7:30 p.m. Thursday at his home following a lingering illness.

Born in St. Clair Township Nov. 10, 1879, he was the son of Mr. and Mrs. Alfred Moore. In April, 1909, he married Ada Johnson, who survives.

A retired city mail carrier, he taught school in Columbiana County in his early life. He was a well-known musician.

He was a member of the Eagles Lodge here for over 50 years.

Besides his wife, he leaves two sisters, Mrs. Frank Kannal of New Waterford and Mrs. Ira Christman of Canfield.

Friends may call at the funeral home Saturday evening.

## New Hearing Set For Jack Rogers

A habeas corpus hearing has been set May 29 at 1:30 p.m. at Lima in Allen County for Jack Rogers, 34, who has spent 16 years in Lima State Hospital after beating to death an elderly man here June 7, 1942.

The hearing will inquire into the lawfulness of keeping Rogers, former Salem coal miner, in the institution.

Rogers was indicted by the grand jury on a second degree murder charge after he beat and kicked to death John Krulick, 71, of Salem Heights when he came upon the victim sitting on the steps in front of a W. State St. tavern. Rogers was 18 at the time.

At the first trial, Rogers pleaded innocent by reason of insanity and was committed to Massillon State Hospital for observation. On July 1, 1942, an insanity hearing was held at the Massillon institution, and Rogers was sentenced to the Lima hospital.

Jan. 1, 1957, Dr. R. E. Bushong of the Lima hospital informed Common Pleas Court that Rogers had been restored to reason with in the meaning of the law, and he was returned to Columbiana County for a hearing on the murder charge.

On Oct. 2, 1957 the court found him still insane and ordered him recommitted to the hospital until his sanity was restored, and his release would not be dangerous to society.

## Bishop

(Continued From Page One)

liceman, who was acquitted, and in the trial of Cunningham and Jerry Rainmond, onetime special officer, who were acquitted of the Berman thefts.

It was in the Berman trial that Bishop repudiated his 12-page statement, and he was subsequently sentenced to the penitentiary for one to 15 years on each of the two counts.

However, the Seventh District Court of Appeals ruled he could again change his plea to innocent and should stand trial. In March he was acquitted of the Berman entering in a verdict directed by Judge Buzzard on grounds the evidence failed to prove he entered the firm on the date charged.

This Smith and Phillips Co. entering trial began April 28 but was halted in the second day in a mistrial requested by the prosecution because a woman juror may have been influenced by a defense attorney in a greeting on the Court-house steps.

Shortly after the club was formed, the Salem YWCA was organized and 75 per cent of the high school girls became members. The Y-teens now includes all YWCA members of high school age, and Mrs. Cope is their advisor.

Mrs. Cope outlined the program made available to the public at the local YW headquarters.

Most of the Y-teens members are active in community service projects and some of them serve on the staff of "The Robin," a monthly magazine compiled, edited and printed in Salem and circulated among multiple sclerosis patients in 10 states, the speaker concluded.

## Jupiter Missile Firing Postponed by Army

CAPE CANAVERAL, Fla. — An Army Jupiter intermediate range ballistic missile launching, the first in five months, was postponed by technical difficulties early today at the last split second.

After an 18-minute delay in the preliminary countdown, the missile appeared set to go. Power was cut off at the critical zero mark, however. The shoot was "scrubbed" at 12:30 a.m.

The Department of Defense said in a brief statement that the launching would be rescheduled at the earliest possible date. No details were released on the technical trouble.

## House Unit to Vote On Defense Measure

WASHINGTON — The House Armed Services Committee goes behind closed doors today to vote on provisions of a defense reorganization bill.

Every indication pointed to approval of a measure that would give President Eisenhower substantially what he asked by way of simplified, direct command of unified forces through the secretary of defense.

But Eisenhower was likely to get less than what he called for in administrative changes.

The committee appeared determined to refuse or closely hedge any concessions on separate administration of the armed services—a possible key to greater control of military funds by the secretary of defense.

Advance signs also indicated the committee was unlikely to reduce Congress' prerogative of setting the roles and missions of the individual services. It seemed inclined to provide the over-all director of research Eisenhower advocates.

Chairman Carl Vinson (D-Ga.), said he could not be sure the committee would finish its work today.

### Questions and Answers

It is a pleasure to give a clear answer to today's first inquiry!

Q — Do thyroid tablets become habit-forming? Is it better in the long run to take these tablets or to leave them alone if one's thyroid is underactive?

A — Thyroid tablets are not habit-forming. They supply the hormone which a person with an underactive thyroid gland is not able to produce himself. In other words, this is substitution treatment.

If the thyroid is truly underactive, thyroid tablets can supply the deficiency and can be taken indefinitely in the proper dosage without harm. However, just the right amount must be taken — neither too little nor too much.

Q — What are the advantages or disadvantages of taking warm salt water baths? Are they beneficial? If taken, should the salt bath be followed by a plain water bath?

A — I am not aware of any convincing evidence that there are any great advantages or disadvantages in bathing in salt water rather than in fresh water, though such

treatments have been used for centuries.

Salt water will often leave a deposit of salt on the skin and most people feel more comfortable if this is washed off by subsequent fresh-water bathing.

Q — A friend of mine died a few weeks ago from cancer and her family gave me her clothes and her bed. Would it be safe for me to use them?

A — It would be quite safe. Cancer is not spread through clothing, nor is it contagious in any other way.

Q — My right foot is always cold no matter how much I rub it or what I wear. Can you help?

A — The question suggests poor circulation in one leg. Consequently there is need for immediate and careful examination of the circulatory system.

Q — What is the meaning of a dilated heart? Is it dangerous?

A — This presumably refers to

a condition in which the size of the heart is enlarged by pressure from the inside, probably without corresponding increase in the thickness of the heart muscle. It can result from any one of several kinds of heart disease.

It must be considered a serious symptom.

Q — When a person has had a stroke and this has affected the mind, is there any way that the mind can be restored?

A — The brain tissue is exceedingly sensitive and, unlike some of the other tissues, it does not rebuild after it has been damaged. As yet there is no treatment which can effectively restore damaged brain tissues.

# Inside Labor By Victor Riesel

That stormy Petriello of American music, otherwise known as James Caesar, definitely plans to resign from his union's presidency within a month. This would remove from the national scene not only the most powerful personality in America's two billion dollar entertainment world, but probably set the precedent for the resignation in other unions of veteran chiefs who have built American labor into the powerful complex it is today.

Jimmy Petriello, known to intimates inside labor as a fabulous story-teller who could turn from lovable clown to statistic-laden economist, has told his family and close friends that he positively will tell the union's next convention which opens the week of June 1 in Philadelphia, that he does not

want to be renominated. To prove his seriousness, Petriello spent most of last week writing a letter to his fellow officers.

This he kept secret until he decided it would not be fair to spring it at his convention, thus denying others a chance to campaign for what the office he had frequently turned into a supreme command for war on U.S. presidents, foreign dictators and giant broadcasting networks in a fight against canned music and non-union musicians. Today the American Federation of Musicians has some 240,000 members.

THERE ARE those, of course, who will attempt to draft their ever-bantering 67-year-old chief. But his letter to them appears conclusive enough:

"Now I feel the time has come when I must decide to accept the nomination as president of the American Federation of Musicians at the 61st annual convention in Philadelphia," he wrote.

"I hope and pray the delegates to this convention will respect my

wishes by not nominating me for the presidency of our great organization and, if nominated, by permitting me to withdraw . . . I cannot say that I am a sick man, but I am a tired man and I do not seem to have the recuperative powers I used to have. My doctor advises me that if I continue as president, I will have to take things easy in this position without hurting the organization I love."

But more important than what seems to be the final chapters of a saga which began 60 years ago when Jimmy earned a couple of nickels carrying a big bass drum, is another part of his letter.

IN THIS section he appears to be talking to the rest of American labor leadership:

"Too many labor leaders — and good ones — have made the vital mistake of remaining on the job when their usefulness to the organization they represent is a thing of the past," the ex-trumpet tooter wrote.

"Result is that their organizations suffer many setbacks that could have been avoided had they retired at the proper time. This mistake I do not want to make

# 6 Tiger Pitchers Fail to Stop 8-5 Beating By Indians

## Maris Blasts Home in Fifth

Don Mossi Receives Credit For 3rd Win

DETROIT (AP) — The Detroit Tigers have no sympathy for the National League pitchers who are having "gopher ball" trouble because of short fences.

Tiger pitchers have enough trouble of their own. His name is Roger Maris.

The muscular Cleveland Indian outfielder leaves the tape-measure home runs to Mickey Mantle, but like the Yankee slugger and Ted Williams, Maris has developed an affection for the right field fence at Briggs Stadium.

In the three-game series concluded Thursday, Maris walloped four home runs into the right field seats. Two came against righthanded pitching and two against southpaws.

The Cleveland sophomore has hit seven home runs this season and six have come at Briggs Stadium. Of 14 home runs a year ago, four were off Tiger pitching and three of them were hit in Detroit.

Maris batted in eight runs in the three-game series, six of them with home runs. His bases-empty blast Thursday came in the fifth inning against lefty Lou Sleater. The Indians went on to an 8-5 triumph for an edge in the series.

One of his teammates remarked later that Detroit pitchers have been whizzing quite a number of pitches near Maris' head.

"That doesn't bother me," said the 23-year-old outfielder. "That shows they have a little respect for me."

Minnie Minoso also hit a two-run home run Thursday, and three home runs accounted for all four Detroit runs off starter Ray Narleski. Minoso's came in the ninth with one man on. Gail Harris hit his with one man on for Detroit, and Sleater and Frank Bolling homered in the fifth.

Don Mossi, who gets credit for the victory, took over from Narleski in the fifth when the Indians were leading 5-4. It was Mossi's third victory against one loss.

Detroit Manager Jack Tighe sent six pitchers against the Indians. Of the Tribe's nine hits off this sextet, seven were by Maris, Minoso and Mickey Vernon.

Maris and Minoso each got two, and Vernon hit a double and two singles.

Tiger starter Billy Hoelt retired the first six men to face him but was hit on the foot in the third inning by Vernon's line single and had to leave the game.

The victory gave the Indians 6-8 record for their 18-day trip.

Returning to Cleveland for a night game tonight, the Indians send Don Ferrarese against Billy Pierce (0-3) of the Chicago White Sox.

## Largest Field in Thirty Years Expected to Run in Preakness

BALTIMORE (AP) — Trainers of Preakness horses paraded to the Pimlico racing secretary's office today to enter their steeds in Maryland's big three-year-old classic, and the prospects called for the largest field in 30 years.

Jimmy Conway, who trains Talent Show for Mrs. Ada L. Rice of Chicago, beat the gun by telephoning his entry in from New Jersey Thursday. Eleven others headed by the Calumet Farm's Tim Tam, winner of the Kentucky Derby two weeks ago, were expected to be named for the mile and three-sixteenths gallop on Saturday.

With a dozen starters, and the Derby mud an excuse for many of the horses, this 82nd Preakness shapes up as one of the most controversial races since Survivor capped the inaugural in 1873. In 1923, Harry Payne Whitney's Victorian defeated 17 rivals—the most ever to start in the Preakness.

In addition to Silky, 12th in the Derby go, Tim Tam and Talent Show, others in the expected lineup were the Main Chance Farm entry of Jewel's Reward and Liberty Ruler, the Sunny Blue Farm's Lincoln Road, the Crabgrass stable's Nureddin, the Llangollen Farm's Gone Fishin', Edward J. Petter Jr.'s Pilon, the Powhatan stable's Michore, Mrs. Anna Canali's Chance it Tony, and George Lewis' Martins Rullah.

The weatherman predicted fair and mild weather and the presence of the Derby stars plus the lure of come-from-behind Silky probably will mean one of the biggest Pimlico crowds in years. The track has been fast for several days, but whether any horse can renounce Nashua's track and Preakness record of 1:54 3/5 set in 1953 remains to be seen.

**Rhyme Hits Okay Of Bill Curtailing U.S. Court Powers**

CLEVELAND (AP) — To abolish jurisdiction of the U. S. Supreme Court because of disagreement with a judicial decision is like deciding that "disagreement with decisions of a baseball umpire at home plate is reason to eliminate home plate umpires."

That was the view taken by Charles S. Rhyme, president of the American Bar Assn., as he attacked the Senate Judiciary Committee for approval of a bill to curtail the jurisdiction of the Supreme Court.

Rhyme, in a speech Thursday night before Western Reserve University Law School alumni, charged Sen. William E. Jenner (R-Ind.), sponsor of the bill, with failing to distinguish between decisions and the mechanism of decisions.

He said the legislation could destroy the American system of government.

An independent judiciary, "free from public polls and pressures," is a basic tenet of our separation-of-powers doctrine, said Rhyme.

"Our system of government is no stronger than our courts," he said. "If one of our three branches may be destroyed, none are safe."

**Softball Association To Arrange Schedules**

Managers of teams entered in the Salem Softball Association are asked to meet on the second floor of the Memorial Building at 7:30 p.m. Saturday to arrange 1958 schedules, Dave Briskin, executive secretary reported today.

Briskin said there will be two leagues this season. Eight teams will compete in the Class AA loop and 10 in the Class A, he added.

## Athletics Blank White Sox 3-0

Vic Power Smashes Three-Run Homer

By The Associated Press  
Little Ned Garver, whose 20 victories for a last place club now are all but forgotten, is back in business again as the pitching ace of the Kansas City Athletics.

It was in 1951 that Garver, a baby-faced kid of 25, was 20-12 for the old cellar dwelling St. Louis Browns, who won but 52 games that year.

Garver, who stands 5-10 1/2, has had only one winning season since 14-11 with Detroit in 1954, but now he's 4-1 with the A's after collecting his second shutout with a seven-hit, 3-0 victory over the Chicago White Sox Thursday.

Cleveland moved into a fourth place tie with Detroit, belting the Tigers 8-5 in the only other game played. Baltimore at New York was postponed because of rain. Washington and Boston weren't scheduled.

A three-run homer by Vic Power, following singles by Mike Baxes and Hec Lopez, broke up a scoreless duel between Garver and Jim Wilson at Kansas City. It was Power's second homer, both off the White Sox right-hander, now 3-2.

Roger Maris drove in three of the first five Cleveland runs, two with a third-inning double and the other with a fifth-inning homer — his fourth in three games. The sophomore outfielder has hit seven homers for the season, six at Detroit.

Don Mossi (3-3) relieved Ray Narleski in the fifth and gave up one run on two hits for his second victory in two days. Sive of Detroit's eight hits were for extra bases — homers by Gail Harris, Lou Sleater and Frank Bolling and a double and triple by Harvey Kuenn. Billy Hoelt (3-2) lost it although giving up but one hit — a Mickey Vernon liner that cracked the Tiger lefty on the foot and put him out of the game in the third.

## Redlegs Register 9-4 Win Over Bucs

CINCINNATI (AP) — You have only to look back through the records to discover at least one of the reasons for the sad plight of the Cincinnati Redlegs.

They got 14 hits Thursday as they whipped the Pittsburgh Pirates.

## Hayes Doesn't Plan to Rest On Laurels

COLUMBUS, Ohio (AP) — Ohio State's Woody Hayes, 1957 coach of the year and boss of the Big Ten and Rose Bowl champions, isn't planning to rest on his laurels.

He said today the Bucks would be a "pretty good football team next fall," but warned: "We'll be standing in the middle of the national spotlight, and we can't let it blind us."

Cognizant of the fact the football scribes are handing the Western Conference title to Ohio on a pre-season silver platter, Woody observed:

"I don't blame the sports writers for picking us. They are reflecting the thinking generally. But it's impossible to see how a team will finish. Not once in the last seven years has the team picked to take the title actually won it. There are six or seven teams which could take it all this fall."

Hayes hinted his team would do a little more passing next season than it has the last few.

"You'd be surprised how many pass plays we started last fall," he said. "We use a lot of option plays in which the quarterback makes a choice. We try to pass to an end if he's open early. If he isn't we forget him and try to find an open halfback. If they're covered the quarterback runs the ball—and Frank Kremblas covered a lot of ground with it last fall."

Woody went on to say: Don Clark, the breakaway runner from Akron, is completely healed from the injury which kept him out of the late-season games last fall.

Andy Okulovich, third string quarterback behind Kremblas and Jerry Fields of Coal Grove, is turning pro and won't be around next fall.

Dave Kilgore, the sophomore place-kicking specialist from Dayton, has been booting 50 to 60 times each evening, and seldom misses.

On the conversion angle, the majority of teams will go for two points on the run or pass play early in the season, and will make it 30 to 40 per cent of the time. Later they'll be booting one-pointers.

John Dresser of Toledo, who led the state in scoring as a high school senior, probably will be moved from halfback to end.

Jim Houston, the Massillon end, could be the Bucks' best wingman in seven years.

Dan, Frank of Dover is one of the top centers in the country, and came out uninvited for the Buck squad—for which anyone can get a suit.

## DuPont Investment Companies Hit U.S. Antitrust Proposal

CHICAGO (AP)—Two Du Pont investment companies declared Thursday that an antitrust proposal by the Justice Department would virtually confiscate their 667 million dollar interest in General Motors Corp.

These firms are the Christiana Securities Co. and Delaware Realty and Investment Co. which together own 29 per cent of the Du Pont Co.'s outstanding common stock.

The two firms were found innocent of any violation of law in the antitrust suit the government

brought against Du Pont, General Motors and others.

In a memorandum to the U.S. District Court the two companies said the government plan for compliance with a Supreme Court decree would be confiscatory. The memorandum added:

"All of this would be strong medicine, indeed, even for a law violator; it makes no sense at all when imposed upon innocent parties without any real need in terms of the objectives of the cause."

The firms approved a counter-plan by Du Pont to divorce itself from General Motors while at the same time protecting stockholders from a possible five billion dollar loss in their investment.

The Du Pont proposal was filed Wednesday in U. S. District Court in compliance with a U. S. Supreme Court ruling which directs Du Pont to give up ownership of 23 per cent of General Motors.

Du Pont said a Justice Department proposal made in October 1957 would cause forced sales of stock and tax penalties that could result in a tax and market value loss of about five billion to stockholders of the two concerns.

Its plan, Du Pont said, would satisfy the high court's mandate without penalizing nearly 900,000 stockholders.

The company's alternate plan would not involve sale of the motor firm's stock but would prevent Du Pont from voting it or having directors on the General Motors Board. In effect, Du Pont would only collect dividends from the GM stock.

## Slayer in Cleveland Gets Life Imprisonment

CLEVELAND (AP)—Common Pleas Judge John J. Mahon sentenced Leon C. Williams, 33, of Cleveland, to life imprisonment in Ohio Penitentiary Thursday for the slaying of special policeman Lawrence Lawler.

Williams pleaded guilty to second degree murder. He and Charles E. Rogers, 24, also of Cleveland were charged with first degree murder in the Feb. 1 slaying of the 41-year-old Lawler.

Police said Lawler died of knife wounds after wrestling with the two on the floor of a bar here.

## Pre-School Health Forms Distributed

The records office at Salem High School reports 400 preschool health forms have been sent out from the nurse's office for children entering Salem schools for the first time in September, according to D. C. Phillips of the office of child accounting.

The children's parents will receive registration forms and letters, explaining registration procedure later in the summer from the principal of the school to which the child is assigned.

The seventh and eighth grades will be relocated in the present high school to form a three-year ninth grade.

This will allow the Fourth Street School to include a kindergarten and to accommodate other pupils from schools that would not otherwise be able to handle next year's elementary enrollment. It is estimated that here should be approximately a 70-pupil increase for next year's kindergarten through the sixth grade.

Parents of children eligible to attend school in the fall but who have not received their health forms, are asked to call the nurse's office at ED 2-4726 or ED 7-9453. This information would also assist the school in determining next year's distribution of pupils prior to the completion of the annual school enumeration in June.

Children who will be five years old on or before Sept. 30, 1958, will be eligible for kindergarten. Those six years of age on or before that date may enter the first grade.

The Salem school district includes all of Perry Township and the Franklin Road section of Salem Township south to the underpass.

## Little Wonder This Ad Stirred Up Lot Of Calls, Inquiries

CINCINNATI (AP)—A classified ad which appeared in the Cincinnati Enquirer this week stirred up a lot of calls and inquiries.

The ad said:

"Wanted to buy — poison ivy leaves and stems, up to 1,000 pounds, 35 cents a pound."

The calls came from farmers, suburbanites, orchardists and gardeners who usually spend a lot of money trying to get rid of poison ivy and now were being offered cash for it.

The inquiries were from persons just wanting to know what anyone wanted with poison ivy.

E. M. Espy, production manager for Lloyd Bros. Inc., who inserted the ad, explained it all. His firm manufactures a tincture from poison ivy to make persons immune to the poison. Heretofore it has been sold mostly through a doctor's prescription but now it can be bought in a drug store.

Espy said he had more than 30 calls in a day and a half and two men, who offered to bring in fresh plants in 400-pound lots, got the job.

One inquiry was, "How do people pick poison ivy without being affected?"

Espy said that's simple—some people aren't allergic to it and they never have any trouble.

Then there was the question, "Isn't 35 cents a pound for poison ivy a little high?"

To that Espy said, "Well, we didn't expect so great a response."

## Asbestos Workers Call Off Strike In Cleveland Area

CLEVELAND (AP)—The Asbestos Workers Union has called off a strike that triggered a shutdown of many commercial and industrial building projects in northeastern Ohio.

But an employer's group spokesman says that does not mean work will resume immediately on the projects.

"This dispute is not settled by a damn sight," said William J. Hunkin, vice president of the Cleveland Building Trades Employers Assn. (BTEA) Thursday after returning here from Washington.

A BTEA committee met with Asbestos Workers Union President Carl W. Siskles in Washington, and Siskles issued instructions to Local 3 to end the strike which started May 1. Local 3 ordered members back to work today.

Hunkin said, however, "There cannot be a unilateral ending of the strike as far as we are concerned until we negotiate new contracts."

Negotiations on contracts to replace those that expired April 30 will resume today.

Some 10,000 building trades workers in Cuyahoga, Lake, Lorain and Geauga counties were idled by the combination strike and shutdown. The 200 - member Asbestos Workers Union had called their strike as negotiators for the trades unions and the employer group reportedly were near agreement on contract terms.

The BTEA claimed a strike by one of the 18 unions represented by the Building Trades Council constituted a strike by all. The unions accused the employers of a lockout.

Suggested plans for advertising and marketing of berries will be acted upon by the growers. They will also discuss a grower's tour to Michigan and plans for a two-light meeting.

## Senate Probe Into Nixon's Tour Planned

WASHINGTON (AP)—A Senate subcommittee meet today to decide when it can start an investigation of Vice President Nixon's South American tour.

Chairman Wayne Morse (D-Ore) said Thursday he hopes to start hearings next week. Other members of the Foreign Relations subcommittee said the start may have to be postponed until the full committee can complete work on a foreign aid bill the House passed this week.

Morse announced plans to call officials of the State Department and the Central Intelligence Agency, saying he wants to determine whether those agencies were "ignorant or knowingly undertaking a gamble" in view of the dangers that developed during Nixon's tour.

The vice president returned to a triumphant welcome Thursday after an eight-country tour of South America during which he was stoned and spat upon in Peru and threatened by mobs in Caracas, Venezuela.

Morse said the subcommittee should look first into the incidents and background of the Nixon trip, saying the United States "suffered a major foreign policy setback in Latin America." But he indicated plans to go beyond that, adding:

"The second stage of hearings I propose will go into a study of Latin American discontent with U. S. economic, military and political policies."

# Expert Says Organs of Body Can Be Made to Obey Signals

SAN FRANCISCO (AP)—A Russian medical scientist says the vital organs of human beings can be made to obey visual or sound signals or other communications from the outside.

Glands can be speeded up or slowed down; hearts can be kept from beating too fast under excitement; stomachs and intestines can be given diseases by signals and then can be cured the same way, he asserts.

This concept opens up a great new field in psychosomatic medicine.

In fact, he went on, humans and higher animals probably do all their functioning through a complicated signal system of this kind. If anything goes wrong with it, the result may be mental illness.

Under this line of reasoning the formula for healthy existence would be to keep the signal system in good working order and to modify it here and there so it would maintain all the body's processes in balance.

The statements came from Prof. Constantine Bykov, director of the famed Pavlov Institute near Leningrad. He talked this week at a news conference at the American Psychiatric Assn. meeting through two Russian speaking American physicians, Dr. W. Hoesley Gantt of Baltimore and Dr. Iago Galston of New York.

Prof. Bykov's work is an outgrowth of the discovery more than half a century ago by Ivan Pavlov that a dog could be made to drool at the sound of a bell.

## Cary Grant

By HAL BOYLE

NEW YORK (AP)—Cary Grant picks the age of 35 as the "break-even point" in life.

After that, he says, things should get better—if they are ever going to.

"Until 35 a man is often a self-centered idiot," the handsome screen actor remarked, "but then he should begin to make more sense."

"I know I was impossible before 35. I'm hardly possible now. I may be more of a bore, but I feel I'm less of a bore. I'm a little less self-concerned."

"Sufficient kicks in the rear over the years do make a difference, and you can learn from experience."

"If a man picks up a little knowledge, if he improves his tolerance, if he reduces his own impatience and irritability, if he can spare a listening ear to the other fellow—well, he can't help but find himself easier to live with."

Grant just returned this week from England where he costarred with Ingrid Bergman in "Indiscreet," a romantic comedy.

Grant, born Archibald Alexander Leach, ran away from home at 13 to become a stilt walker with an acrobatic troupe. He served time as a carnival barker before he graduated to Broadway and Hollywood stardom.

One who has enjoyed the sunlight of international popularity for so long might be tempted to

pick up his chips and call it quits while he was still ahead. But Grant still wants to go on making pictures, he said, "until I'm dead—or longer."

"I did quit once for 18 months. I can't say I was bored. I never have been. But I just wasn't as interested in life."

"I learned that you appreciate work most while you're at leisure, and leisure while you're at work. It's like being married or single. You can't be both at the same time."

Wat makes for success or failure in living? Many people think luck is the decisive factor. Grant emphatically doesn't.

"Everybody puts himself exactly where he finds himself in this world," he said.

"Everyone has constant choices to make all day long. We put ourselves where we are by the choices we make."

"I know I'm sticking my neck out in saying this, and the ill-fortuned won't agree with me."

"But I do believe people can do practically anything they set out to do—if they apply themselves diligently, and learn. Few people recognize opportunity because it comes disguised as hard work and application."

"Too often people are afraid of disappointment. But how can you learn without disappointment—or without making the mistakes that lead to disappointment? How else can you grow?"

COMMANDER — Admiral of the Fleet Earl Mountbatten of Burma is slated to be Britain's first supreme commander of air, land and sea defenses, according to an official source.

## Reuther to Take Up Reins at Wage Talks

DETROIT (AP)—Walter P. Reuther was due back in Detroit today to direct United Auto Workers' Union strategy in the climactic stages of contract talks with the auto companies during the next two weeks.

Reliable sources said the union has advised more than 300,000 members in General Motors' local to be prepared to report for work as usual after the current GM contract expires May 29 even if no new settlement has been reached.

Similar instructions are expected to be given 100,000 Ford workers and 70,000 Chrysler workers. The Ford and Chrysler contracts expire June 1.

Reuther has said the union has no intention of accommodating the companies with a strike when they have a backlog of more than 750,000 unsold new cars.

The average wage for production workers now is \$2.40 an hour. The companies and the union agreed Thursday to keep in effect a news blackout on bargaining talks.
